Frontend Developer | 2024 – Present

PROFESSIONAL EXPERIENCE

- Built multiple real-world web applications using React.js and Tailwind CSS, including a modern portfolio, e-commerce store, and education platform
- Implemented advanced UI animations using Framer Motion, enhancing user engagement and interface interactivity
- Integrated REST APIs to fetch and display live data, such as in the World Atlas project
- Designed and developed responsive layouts optimized for both mobile and desktop
- Consistently engaged with open-source communities, GitHub repositories, and modern development tutorials to refine coding skills and stay aligned with industry best practices.

SKILLS

- HTML5, CSS3, JavaScript
- Tailwind CSS, Bootstrap & Responsive Design
- React.js, Framer Motion
- API Integration, Form Handling
- Git & GitHub, Version Control

PROJECTS

- Education Academia** – React.js, Tailwind CSS
A modern, animated educational website featuring scroll-based effects, responsive design, tech orbiting hero section, and smooth transitions.
- Shopsy E-Commerce** – React.js, Context API, Tailwind CSS
Responsive e-commerce platform with product filtering, animated cards and add-to-cart system icon
- World Atlas Web** – React.js, REST API, Tailwind CSS
Interactive web app that fetches live country data from REST APIs, offering country search, filter by continent, and clean visual layout.
- WanderWise Travel** – React.js, React Router, Tailwind CSS, Framer Motion
Travel booking website with animated hero, destination slider, booking form, testimonials, and responsive multi-page layout.
- Developer Portfolio** – React.js, Tailwind CSS, Framer Motion
Personal portfolio with animated tech orbit, matrix background, scroll-based sections, and dark mode support.

EXPERIENCE

Actively pursuing my first professional role in front-end development, backed by hands-on project experience and a strong foundation in modern web technologies.
